

The Word of God on the Sunday of all saints (Excerpt)

... It is a great celebration and in the middle of it there lies Verginica within the mantle of glory and celebrates with the saints the passing of seventy years from her coming among the people. Verginica's coming is a great mystery, but the mystery of her coming among the heavenly saints is great, as that power for you has been since then a heavenly garment and a strength which you were dressed with, the ones who were found next to her when she entered the heavenly glory. Blessed are the Christians who have Verginica. Blessed are the ones who know well how to have her. She is standing next to the Mother of the Son of God. She has the passing of the nowadays days when those in the great tribulation (*The persecution of the communist regime against the sons of God, r.n.*) entered and enter the mystery of the heavenly kingdom worked on earth.

Blessed are those who have understood the mystery of this work of God, which was born from Verginica. I told you that she would be shown herself to those who know her, and her glory which she got from God will be seen, for her body was My obedient abode, and I would work with her more then with Moses in front of heavenly glory. She is accompanied in her work by Moses and Elijah, the same way as I was, but she has My dear Mother and the son given to her by Myself when I was on the cross, and everybody works in the time of Verginica, all saints and fathers, all the archangels and angels, all entered with Verginica the great celebration of Romania's preparation, for that visible glory of the kingdom of Jesus Christ, the Son of God. And the Master of the vineyard shall come and it will be a heavenly beauty and the blessings will be divided for each group, for each glory, and the seats will be set, but then the heavenly table will be spread, and the Lord will be working with heaven and will sit at the heavenly table together with those who have been working on the earth for the preparation of the wedding room and for the music which will be sung by choirs of angels above the new earth that rises from it and which will yield the fruit of that life without death of eternity.
