

The Word of God

... You Christian do not look at the dead who buries himself, for there shall be a day when the dead is not buried and it shall be that in a twinkle of a clock everybody will awake.

... Your ancestors had built monasteries for today and tomorrow's children. It is for you, Christians, that your ancestors had built this house. Why did they turn the Holy house into a museum? Do you think the doors will open? They will open by themselves. There is no Constantin Brâncoveanu to open them. There is no Great Stephen to come to [Voronet](#). They are not here any more, but their holy prayer which is being made, opens them. But if you have no holy belief, you will not walk into this Holy house. Who built the Cernica monastery? Saint Calinic. There is not his hand any more, there is no nephew, as they all drink tzuica. There is no one to open the cells, there is no one, but his hand will open the house's door. You might say that it was not closed, but it is closed, My child, and many holy monasteries are closed with iron and steel keys, (*By the communist dictatorship, r.n.*) My children, but the ones who had built them shall open them for My chosen ones. Be a chosen one, you too, Christian, in order to eat in God's house that bread which [Great Stephen](#) had eaten, that bread which Vodă-Negru (*Black-King*) had eaten. They did not save their money at the bank, but they used to build holy houses.
